

Hello from your Queen's Park ward PCSOs Chapman 41212 and Chandler 42162. Bringing to you this month's ward update.

Ward issues Update

Current concerns in the Queen's Park area

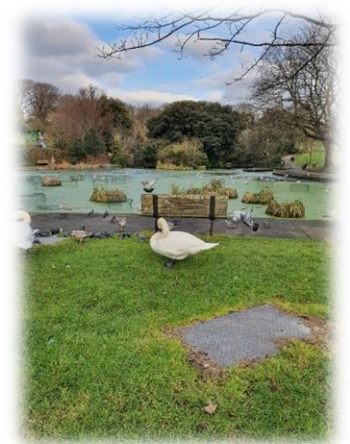

There has been an increase in reports of drug dealing around the back of The Wood Store at the junction of Edward Street and Till Stone Street. We have been provided with times this is occurring, and we aim to patrol the area on our patrols.

There are currently some reports of drug activity/cuckooing in Tyson Place, which we are working with local authorities on, to eliminate the issues.

Ward Patrols

In December, despite the cold weather, both ward PCSOs have each conducted a minimum of two patrols every week throughout the month. Due to the ongoing work on the children's playground, we have seen a decrease in school children visiting.

Going forward..

As previously, we continue to provide a sufficient level of high visibility foot patrols, around the Ward, and attend community events and meetings as much as possible between the pair of us.

If there is a meeting or event you feel would be beneficial for us to attend, please put in a request via 101.

If you see us out and about, please don't hesitate to come and speak to us. We are happy to chat!
