

Ward Update July 2025

Ward Update

I have been busy this month with several operational challenges, but I have visited several people this month regarding neighbour disputes and concerns. I am happy to hear any concerns related to neighbour abuse, this should also be reported to Environmental Health.

Earlier this month I removed a campervan that was parked illegally, and insecure as the window had been smashed. With regard to abandoned vehicles, I will be able to remove them if the vehicle is insecure otherwise this can be reported to Op Crackdown <https://operationcrackdown.org/>.

I will be increasing patrols and visiting Co-op after several shoplifting offences in the last few week, any other businesses facing similar concerns should contact police on 101 or 999 in an emergency.

I have continued to patrol in the hotspots and hopefully you have seen me out and about, I am always happy to stop and say hello.

As always, please remember to contact 101 or 999 in an emergency for any concerns where you need Police assistance.
